## OTR Debuts PROWLER Tire for Turf, Hard Surfaces

ROME, Ga. – [OTR Engineered Solutions \(OTR\)](#) has expanded its popular PROWLER line of all-terrain tires with a new [25x10-12](#) size engineered specifically for today's high-performance side-by-side utility vehicles (UTVs). The new tire delivers a unique blend of turf protection, quiet ride quality, and hard-surface durability, making it an ideal fit for commercial golf carts, municipal utility vehicles, and ATV/UTV applications on asphalt, concrete, and gravel.

Designed with versatility in mind, the PROWLER features a proprietary tread pattern that includes V-shaped shoulder lugs with sipes for improved grip, cornering, and self-cleaning. A solid center tread element helps reduce road noise and resist wear on hard surfaces, while the 6-ply rating provides excellent load-bearing capacity and puncture resistance, making it well suited for hauling heavy gear and equipment across mixed terrains.

"The new 25x10-12 PROWLER tire is a game-changer for customers who rely on their UTVs in commercial settings," said Steve Jensen, VP Aftermarket at OTR. "Whether it's a college campus, golf course, resort, or industrial park, this tire offers the durability and comfort operators need — on both grass and pavement."

The full line of PROWLER tires, including the new 25x10-12, is available through OTR's broad dealer network and online at [otrb2b.com](http://otrb2b.com).

OTR Engineered Solutions is a market-leading global enterprise specializing in off-the-road tire, wheel, and track solutions for original equipment manufacturers (OEMs) and aftermarkets. Known for being an innovator in multiple off-the-road applications, OTR differentiates itself by providing value-added services such as warehousing, tire mounting, and sequencing, among other things. The firm has long established strategic partnerships with OEMs covering Construction, Lawn & Garden, Powersports, Agriculture, Forestry, Mining, Material Handling, and Specialty Vehicle markets. OTR's infrastructure comprises 30+ facilities and warehouse locations throughout the U.S., Canada, Europe, and Asia, serving customers globally.
