

NDX™

Tire & Wheel

The Tire That Never Goes Flat

Tested by OTR, proven by customer performance, the NDX™ is the only run-flat tire of its kind in the market which looks and performs exactly like a tire, but carries all the cost-saving and eco-friendly benefits of OTR's custom engineering and service capabilities.

Why choose the NDX™?

- No more flat tires, 0% downtime, 100% Uptime
- A complete assembly for bolt-on installation
- Improves fuel economy by up to 10% vs. conventional options*
- Lasts 2x as long as other market comparable options

*Function of application and terrain.

Puncture-Resistant

Enhanced Durability

No Maintenance

Cost-Saving Investment

How NDX™ reduces cost and downtime (Cost may vary in your region or by application.)

\$300
cost per incident
(lost productivity + labor.)

=

\$7,800
in opportunity costs

Utility & Rough Terrain Vehicles:

10 vehicles in the
average fleet

=

\$78,000
lost annually

Zero-Turn, Riding & Stand-On Mowers:

4 vehicles in the
average fleet

=

\$31,200
lost annually

NDX RUN-FLAT TIRE

Lasts Over
2X LONGER
Than Other
Run-Flat Options
